Contractor Eligibility

Millions in federal and state grant funding have been awarded to local municipalities, providing numerous opportunities for local contractors to bid and work on rehabilitation projects in our area.

We are compiling a list of qualified contractors to work on residential and mixed-use projects ranging in cost from \$20,000 to \$100,000+. MWBE, SDVOB, and Section 3 businesses are strongly encouraged to apply.

Payment can be released at the end or progress payments can be arranged for certain sized projects. Payment is guaranteed for projects that are completed per agreed upon work specs.

All contractors performing work under this program must meet minimum qualifications for participation in a Federal or State funded program, based upon their comparable work, credit checks and other references:

- A minimum \$1,000,000 liability insurance.
- Workers compensation and disability insurance as required by New York State.
- Must have current Lead Safe Work Practices and Lead-Safe Contractor RRP Certification and Firm Certification and provide proof of this training.
- Individual grant programs or municipalities may require additional insurance coverage.
